Letter to Shareholders

Dear shareholders and business partners,
ladies and gentlemen,

The third quarter of 2017 again saw the Fair Value Group increase its operating strength further. We are convinced that the positive trend will continue unabated in the year as a whole.

All key earnings indicators were improved considerably in the first nine months of 2017 compared to the previous-year period: The operating result (EBIT) increased to €15 million compared to €10.6 million in the previous year; at around €7.4 million, group net profit increased significantly compared to the previous-year figure of €4.5 million and funds from operations (FFO) after non-controlling interests increased by 21% from €4.4 million in the previous year to €5.3 million.

Thanks to its active asset management, the third quarter saw the Fair Value Group further optimise its real estate portfolio, which currently comprises 31 properties with a market value of around €296 million. Despite sales of properties in the past, at €17.0 million we more or less matched the rental income of the previous-year period (€17.1 million), increasing our net rental income from €11.6 million in the previous-year period to €12.6 million. At 5.2 years, the weighted average lease term (WALT) remained unchanged as of 30 September 2017, as did the occupancy rate (90.6%) compared to 31 December 2016. The occupancy rate stands at 91.8% if the lease agreements already entered into for vacant space that is shortly to be handed over to tenants are taken into account.

Equity in the Fair Value Group increased from €120.6 million as of 31 December 2016 to €122.4 million as of 30 September 2017. This results in an increase in the net asset value (NAV) to €8.72 per share compared to €8.60 as of 31 December 2016. As of the reporting date, the REIT equity ratio increased slightly from 62.7% of immovable assets as of 31 December 2016 to 63.0% as of the reporting date.

Hon. Prof. Andreas Steyer resigned from the Supervisory Board with due regard to the Company's resignation deadline in accordance with its articles of incorporation and bylaws effective 4 September 2017. Mr. Steyer had been a member of the board since March 2016. We would like to thank him for the invaluable working relationship based on mutual trust. Mr. Frank Hölzle was appointed as his successor. Since 14 February 2017, he has already been serving as the deputy chairman of the Supervisory Board of DEMIRE Deutsche Mittelstand Real Estate AG.

For the fiscal year 2017 as a whole, we continue to confirm our forecast and, based on the existing portfolio and with an unchanged share of directly owned properties, anticipate FFO before non-controlling interests of between €9.6 million and €10.2 million and after non-controlling interests of between €6.1 million and €6.4 million. This corresponds to between €0.43 and €0.46 per share. We are targeting a dividend of €0.25 per share for the current year.

Group Interim Management Report

Condensed interim group management report as of 30 September 2017

Portfolio

As of 30 September 2017 the total portfolio of directly and indirectly held properties of the Fair Value Group consisted of 31 properties (31 December 2016: 33 properties). The market values of the properties totalling around €296 million (31 December 2016: €291 million) are equivalent to the fair values pursuant to IFRS 13.

At 90.6 %, the profit-weighted occupancy rate of the portfolio as of 30 September 2017 matched that of 31 December 2016 (90.6 %). As of 30 September 2017, the weighted average remaining lease term stood at 5.2 years, also identical to the level as of 31 December 2016.

If those lease agreements already entered into as of the reporting date on 30 September 2017 or vacancies that are yet to be handed over to the tenants were included on a pro forma basis, the profit-weighted occupancy rate of the portfolio as of 30 September 2017 would amount to €22.5 million or 91.8 % of potential rents.

The table below provides an overview of the real estate assets allocated to the Group as of 30 September 2017.

Rental income in the first nine months of the current fiscal year 2017 was down around 1% (€17.2 million) at €17.03 million due to sales of properties in the interim. Net rental income of €12.6 million was up €1.0 million, or 9%, on the previous-year figure of €11.6 million on account of the reduction in vacancies, higher service charge income and a decrease in property-related expenses.

General administrative expenses increased to €2.1 million, that is €0.4 million or 26% up on the previous-year figure of €1.7 million due to increased costs for audit services and personnel at the level of Fair Value REIT-AG as well as at the level of the subsidiaries. With a gain of €4.5 million, the balance of other income and expenses as well as of disposal and measurement gains and losses was up by €3.8 million on the previous-year profit of €0.7 million.

This produced an operating result of €15.0 million, which was up €4.4 million, or 41%, on the comparative figure for the previous year (€10.6 million).

At €2.1 million, net interest expenses within the Group were down €0.9 million or 30% on the previous-year figure of €3.0 million.

After deducting the share of profit/loss attributable to non-controlling interests of €5.5 million (previous year: €3.1 million), the Fair Value Group closed the first nine months of the current fiscal year 2017 with a group net profit of €7.4 million (previous year: €4.5 million).

At €8.6 million, the operating business result of the Fair Value Group adjusted for the costs of measurement/disposal and other special effects (EPRA earnings/FFO) was up €1.3 million or 18% in the first nine months of the current fiscal year compared to the figure of €7.3 million for the relevant period of the previous year.

After deducting the profit/loss attributable to non-controlling interests, adjusted profit/loss of the Group (FFO) came to €5.3 million (rounded) and was thus up €0.9 million or 21% on the previous-year figure of €4.4 million.

In terms of the number of shares outstanding of around 14.03 million in the first nine months of 2017, the FFO came to €0.38 compared to €0.31 in the previous year and was thus up significantly (23%) on the previous-year figure.

Cash flow from operating activities The net cash flow from operating activities generated in the reporting period came to €2.3 million, which is €0.1 million above the previous-year figure of €2.2 million. The increase resulted from the changes in assets and equity and liabilities of €-1.9 million compared to the previous year of €-3.0 million and the distributions to non-controlling interests of €-3.3 million compared to the previous year of €-1.4 million. Adjusted for the changes in assets and equity and liabilities and the distributions to non-controlling interests, the cash flow from operating activities (€7.5 million) increased by €0.9 million compared to the previous year (€6.7 million).

Cash flow from investing activities Investing activities resulted in a cash inflow of €0.2 million. This resulted primarily from the sale of properties with total cash receipts of €3.8 million (previous year: €12.3 million) and recognised investments in real estate funds of €3.5 million.

Cash flow from financing activities The cash outflow from financing activities of €7.6 million was largely a result of the resolution taken by the Annual General Meeting on 2 June 2017 to pay out a dividend of €5.6 million as well as the scheduled repayment of liabilities to banks totalling €4.3 million and the €2.3 million borrowed in connection with additional investments in Eisenhüttenstadt (BBV10).

Liquidity Cash and cash equivalents at the Group decreased only slightly by €0.8 million in the nine months of the current fiscal year to €11.7 million (previous-year period: €12.4 million), in particular due to the high dividend payment.

Financial position

Assets Total assets amounted to €321.0 million as of 30 September 2017 and thus remained on a par with the level from 31 December 2016 (€321.7 million).

Non-current assets of around €296.5 million accounted for 92 % of total assets (31 December 2016: €296.9 million or 92 %). The current assets of €15.3 million or 5 % of total assets (31 December 2016: €21.2 million or 7 % of total assets) consisted to 76 % of cash and cash equivalents (€11.7 million).

At €3.6 million, receivables and other assets accounted for 14.9%. Non-current assets held for sale accounted for €9.2 million or 2.9% of total assets (31 December 2016: €3.6 million or 1.1%). This relates to the sale of an office property of the subsidiary IC Fonds & Co. Büropark Teltow KG (IC07) in Teltow, Brandenburg.

Equity and liabilities On 30 September 2017, assets of €122.4 million (38%) were financed by equity attributable to the shareholders of Fair Value REIT-AG and €199.5 million (62%) by liabilities.

Here it must be taken into account that the non-controlling interests in subsidiaries of €63.8 million were recognised under liabilities pursuant to IFRSs. For the calculation of the minimum equity ratio for the purpose of REIT law, interests in subsidiaries included in the consolidated financial statements not belonging to the parent company and recognised as debt capital are treated as equity. Group equity adjusted accordingly totalled €186.2 million or 58% of the total assets (31 December 2016: €182.3 million or 56.5%).

With immovable assets totalling €295.6 million as of 30 September 2017, the REIT equity ratio amounted to 63.0% (31 December 2016: 62.7%).

Financial liabilities The financial liabilities of the Group amounted to €129.7 million on 30 September 2017 or 40% of total assets (31 December 2016: €131.7 million or 41%). Of this amount, €9.5 million or 7% was current (31 December 2016: €9.3 million or 7%).

Equity/net asset value (NAV) Adding the market values of the properties and the Group, taking into account the other items in the statement of financial position, resulted in a net asset value (NAV) of €122.4 million as of 30 September 2017, compared to €120.6 million as of 31 December 2016.

The 14,029,013 shares outstanding as of the reporting date produced a NAV of €8.72 per share following €8.60 on 31 December 2016. This NAV is also equivalent to the EPRA-NAV as there are no derivative financial instruments.

Subsequent Events

Following Hon. Prof. Andreas Steyer's resignation from Fair Value REIT-AG's Supervisory Board with due regard to the Company's resignation deadline in accordance with its articles of incorporation and bylaws effective 4 September 2017 and Mr. Frank Hölzle's subsequent appointment as new member of the Supervisory Board by the Munich local court (register court), Mr. Rolf Elgeti (chairman of the Supervisory Board) and Mr. Markus Drews (deputy chairman of the Supervisory Board) also resigned from the board with due regard to the Company's resignation deadline in accordance with its articles of incorporation and bylaws effective 30 November 2017. The successors for the members that have left are to be appointed by court order shortly.

Risk Report

The Fair Value Group is exposed to a variety of risks on account of its business activities. In addition to economic risks, these primarily relate to rental risks, rental loss risks as well as interest and liquidity risks. The risk management system as well as the Company's general risks are described in detail in Fair Value REIT-AG's 2016 Annual Report.

For fiscal year 2017, the Management Board does not expect any risks to occur that could jeopardise the ability of Fair Value REIT-AG to continue as a going concern.

Forecast Report

The Management Board reaffirms its forecast in the 2016 Annual Report and, based on the existing portfolio without any changes in the share of directly owned properties, expects funds from operations (FFO) to range between €9.6 million and €10.2 million at group level in 2017 before non-controlling interests. After non-controlling interests, the Management Board expects FFO of around €6.1 million to €6.4 million. This corresponds to FFO of between €0.43 and €0.46 per share currently outstanding. The target dividend for 2017 is €0.25 per share for all shares currently outstanding. This corresponds to a distribution rate of 55% to 57% of FFO.

Notes

(1) General corporate information

Fair Value REIT-AG is a stock corporation founded and based in Germany. The Company does not have any branch offices. Following its registration as a stock corporation on 12 July 2007, Fair Value REIT-AG (the "Company") has been listed on the stock exchange since 16 November 2007. It qualified as a real estate investment trust (REIT) on 6 December 2007. The shares of Fair Value REIT-AG are publicly traded. The registered offices of the Company are located at Wuermstr. 13a in 82166 Graefelfing.

As a real estate investment firm, the Company concentrates on the acquisition and management of commercial property in Germany. Its investing activities focus on retail and office property at secondary locations. Fair Value REIT-AG invests directly in real estate as well as indirectly via the acquisition of investments in real estate partnerships. Information on the group structure is presented in note 2.

Due to its investment in a total of eight (31 December 2016: eight) closed-end real estate funds as well as six additional entities, the Company is required to prepare consolidated financial statements.

(2) Significant accounting, measurement and consolidation methods

Basis of presentation of the financial statements The consolidated financial statements of Fair Value REIT-AG were prepared in accordance with the International Financial Reporting Standards ("IFRS") of the International Accounting Standards Board (IASB), taking into account IAS 34 "Interim Financial Reporting".

Accordingly, certain information and disclosures that would usually be included in the financial statements have either been shortened or omitted. As a result, these interim financial statements do not contain all the information and disclosures required of year-end consolidated financial statements in accordance with IFRSs. The accounting policies applied for the interim consolidated financial statements are the same as those for the last consolidated financial statements at the end of the fiscal year. A detailed description of the accounting principles is contained in the notes to the consolidated financial statements in our annual report for 2016.

The interim consolidated financial statements are generally prepared in accordance with the historical cost convention, except for investment property which was measured at fair value. The interim consolidated financial statements are presented in euros. Unless otherwise specified, all amounts are stated in thousands of euro (€ thousand).

Comparative figures The statement of financial position and the statement of changes in equity use the figures as of the reporting date 31 December 2016 as comparative figures. The comparative figures in the statement of income, the statement of comprehensive income and the statement of cash flows as well as the other overviews relate to the period from 1 January to 30 September 2016.

Consolidation principles and basis of consolidation All subsidiaries are included in the consolidated financial statements.

As of 30 September 2017, the basis of consolidation was as follows:

Accounting policies The accounting policies used in the quarterly financial statements are the same as those used in the consolidated financial statements as of 31 December 2016.

Fair value measurement The Group measures financial instruments and real estate on each reporting date at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement assumes that the business transaction in the course of which the asset is sold or the liability is transferred takes place either on the:

- Principal market for the asset or the liability or
- Most advantageous market for the asset or liability if there is no principal market.

The Group must have access to the principal market or the most advantageous market.

The Share

Fair Value REIT-AG on the capital market

The stock markets in Germany were in a sound condition in the first nine months of 2017. Even temporary market setbacks, mainly in July and August, were compensated again in September. Share prices were buoyed, among other things, by the robust economic situation in Germany. The DAX, Germany's leading share index comprising the 30 largest German companies, recorded growth of 11.7 % in the first nine months of 2017. The smaller stocks index MDAX climbed 17.1 % and the small-cap index SDAX 25.1 %.

In this market environment, the Fair Value REIT-AG share gained significantly. Supported by a positive business development, the share price recorded growth of 25.7 % in the first nine months and closed the third quarter of 2017 at a Xetra closing price of €7.93.
